In the New Millennium

A VITAL REFERENCE IN A SMALL AND FAST WORLD

FOR THE PRESERVATION OF WHAT IS EASILY FORGOTTEN

The World of Tibetan Mastiffs - In the New Millennium

The first issue of 'The World of Tibetan Mastiffs', which covers the worldwide interest in the breed from the year 2000 to 2015, will be published in 2017. Prominent breed enthusiasts, from Canada to Australia and from America to the far east, will bring you the highlights of regional love for the Tibetan Mastiff. In an increasingly faster and smaller world, 'The World of Tibetan Mastiffs' is a colourful reference, essential for true devotees of the breed.

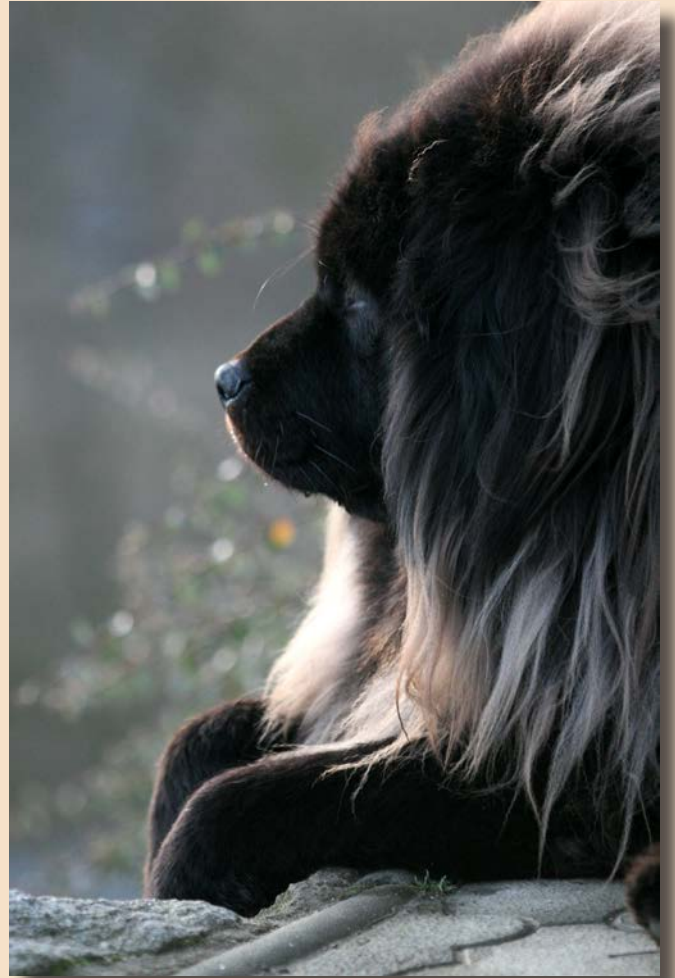

The international orientation of breeders and judges alike has given the development of the breed an extra input. Going for the best counts more than ever, with 'The World of Tibetan Mastiffs' as the most comprehensive guide.

Unbiased reference

Modern technology, the internet and social media have given love for the Tibetan Mastiff a new dimension, unimaginable a few years ago. The very same day a dog show is held, the results can be seen at home, along with the latest gossip. Hundreds of messages per e-group, per week, are not unusual. The more this advances, the more there is the need for a quiet moment of study and unbiased reference, and for this, 'The World of Tibetan Mastiffs' is ideal.

Champions honoured

'The World of Tibetan Mastiffs' brings you all the aspects which make it such a colourful reference, with facts, figures and photographs about breed clubs, events, champions and other important dogs. In principle a selection of champions will be honoured by a full colour photograph and a three-generation pedigree, for free. There will also be in-depth articles about subjects such as breeding, type, history, standard, art, law and health, as well as extensive interviews with top breed enthusiasts. All this will be covered in approximately 350 pages.
