FOR THE PRESERVATION OF WHAT IS EASILY FORGOTTEN

# The World of Clumbers - In the New Millennium

The first issue of 'The World of Clumbers', which covers the worldwide interest in the breed from the year 2000 to 2015, will be published coming Autumn. Prominent breed enthusiasts, from Canada to Australia and from Finland to America, will bring you the highlights of regional love for the Clumber Spaniel. In an increasingly faster and smaller world, 'The World of Clumbers' is a colourful reference, essential for true devotees of the breed.

The international orientation of breeders and judges alike has given the development of the breed an extra input. Going for the best counts more than ever, with 'The World of Clumbers' as the most comprehensive guide.

## **Unbiased reference**

Modern technology, the internet and social media have given love for the Clumber Spaniel a new

dimension, unimaginable a few years ago. The very same day a dog show is held, the results can be seen at home, along with the latest gossip. Hundreds of messages per e-group, per week, are not unusual. The more this advances, the more there is the need for a quiet moment of study and unbiased reference, and for this, 'The World of Clumbers' is ideal.

### **Champions honoured**

'The World of Clumbers' brings you all the aspects which make it such a colourful reference, with facts, figures and photographs about breed clubs, events, champions and other important dogs. In principle every champion will be honoured by a full colour photograph and a three-generation pedigree, for free. There will also be in-depth articles about subjects such as breeding, type, history, standard, art, law and health, as well as extensive interviews

with top breed enthusiasts. All this will be covered in approximately 350 pages.

### **Full-colour**

'The World of Clumbers' is a luxury hardback book with scores of full-colour and black and white photographs, in an impressive format (A4). Extra attention is paid to the adverts, a source of information on their own. Because breeders are of the utmost importance for the breed, the price for an advert is kept as low as possible, certainly when taking into account the worldwide distribution of this magnificent review for the Clumber connoisseur.

### **Correspondent**

In principle a correspondent has been appointed in every country that is home to a number of Clumber Spaniels. Your fellow countryman is the key figure in this vast project. He is the one to contact, for all matters regarding 'The World of Clumbers': delivering copy, placing adverts, buying books, etc.
